Dear Mr. Jans:

On Nov 7-10, 2011, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Midway Sunset Cogeneration Company's (MSCC) procedures in Fellows, California. As a result of the inspection, MSCC was issued a Notice of Amendment on February 21, 2012, which proposed amendment of your procedures.

MSCC submitted its amended procedures on March 16, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
